

## SCHOLARSHIP SUMMARY

Since the beginning of 2006 and after different exploratory visits from the brothers and sister of the Carpenteros and Friends and in coordination with Diaconía Nacional and World Renew, after visiting different communities it was identified that there are children and young people without the opportunity to continue their studies because of the lack of resources from their parents. This is how the “dream” was born for a student scholarship project, a project that has been a blessing and life changing for many young people and their families.

To date 65 students have graduated from high school (48 students in the area of Olancho and 17 in the southern area) in different specialty areas such as; Accounting, Hospitality and Tourism, Public Accounting, and Systems.

Many of these high school graduates continued their university studies. To date there are 11 university professionals: 2 Licensed in Nursing, 3 Schoolteachers, 3 Social Workers, 3 Lawyers, and others who are about to crown their university career in the Honduras Army and Police Force, likewise others have started their own businesses.

What started as a dream, translates to a change of life on a personal, family and community level. The gratitude in each family cannot be expressed in words, but we give glory to the Lord for their lives, their families and their ministries. We encourage you to continue supporting other children and young people who just like us need someone to extend a hand to continue.
